Parent Information Night Term 3:

Understanding Children's Behaviour: Survival tips for parents.

Presented by Kathy Walker

**Do you sometimes feel like you just
don't know what to do next in your parenting?**

**Do you wonder why your children behave
the way they do and what to do about it?**

This presentation provides an overview of some of the reasons why children behave the way they do and gives some practical strategies for parents to support their children so they can guide their behaviours in appropriate ways. Parents are able to raise questions at the presentation and this provides an opportunity for specific issues to be addressed. It focuses upon childrens' behaviour from birth to about 10 years of age.
